DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The claimed invention of disposing a sealing film precursor made up of a polymerizable compound that is supported by a supporting member on both an exposed surface of the dispersion liquid and at least a part of the upper end portion of the partition wall is not shown or suggested by the prior art. Also the claimed invention with a sealing film precursor and bonding film precursor both made up of a polymerizable compound supported by a part of the upper end portion of the partition wall is not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference US2002/0018043 in section [0048] discloses a sealing film precursor made up of a polymerizable compound that is supported by the upper end portion of the partition wall, however, there is no other support member being used and no suggestion to call for one. Reference 6563557 in col. 2, line 47 also discusses the sealing problem in a similar way as the above cited reference.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Hanig whose telephone number is 571-272-2329. The examiner can normally be reached on M-F: 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Epps can be reached on 571-272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
